// full stack developer · oristà (osona)

Robert Bruch Sabata

Expanding my knowledge to grow personally is my passion

About me

I'm a full stack developer and I've been working professionally in software for more than ten years. I've been interested in computing and new technologies since I was a child, and at 16 I decided that this was what I wanted to do.

I started my career at Alvic, where for eight years I maintained and extended Octan POS, an application in production. That period taught me to work with real software and to take care of what already works. Meanwhile, I kept studying with the Degree in Multimedia and the Master's Degree in web application and service development. Since 2023 I have been working at Awayter, developing web applications end to end.

Calm, punctuality and a desire to keep learning define me. Outside work, I enjoy nature and sport: walking, climbing and cycling.

Experience

2023 - present

Full stack developer @ Awayter

Web application development.

2015 - 2023

Delphi developer @ Alvic

Maintenance and new development of the Octan POS application.
